### PROFILE

Vancouver-based ICG 669 Unit Stills and Gallery Photographer with experience on scripted film and television productions. I create clean, story-driven imagery for publicity, gallery, specials, pull-aways, behind-the-scenes, and production use.

I'm known for a calm set presence, strong set etiquette, and organized delivery under real production conditions. My work is built around supporting the needs of production, publicity, talent, crew, and schedule without slowing down the set.

Beyond unit stills and gallery work, I can also support production teams with set archiving and technical reference capture for Art Department, VFX, continuity, and downstream production use. This includes reference photography, photogrammetry, georeferenced capture, and organized image/data delivery when required.

Available for productions across Canada.

### SELECTED FILM & TELEVISION CREDITS

*Selected credits only. Full credit list available through IMDb, ICG 669, and HughTullStudios.com.*

| TITLE                                               | NETWORK / STUDIO       | ROLE                         | YEAR      |
|-----------------------------------------------------|------------------------|------------------------------|-----------|
